

Oracle BI 11g R1: Create Analyses & Dashboards for End Users

Duration: 2 Days

What you will learn

This course provides step-by-step instructions for creating Oracle BI analyses and dashboards in business intelligence applications. You'll begin by building basic analyses to include in dashboards, with more complexity as the course progresses.

Learn To:

- Build analyses and dashboards.
- Build and use views and graphs in analyses.
- Create and modify Oracle BI dashboards.
- Include pivot tables and graphs on the dashboards.
- Use the BI Composer to create and edit analyses.

Benefits to You

Transform your organization's data into intelligence for improved decision making. Provide time-critical, relevant and accurate insights. Become more efficient at modifying analyses and dashboards.

Through hands-on exercises, you'll deep dive into concepts with expert Oracle instructors. Choose from a variety of learning formats to match your learning style and your schedule.

Audience

End Users

Course Objectives

- Build and use views and charts in analyses
- Create and modify Interactive Dashboards
- Create and modify Oracle Business Intelligence analyses using Analyses Editor
- Use BI Composer
- Use hierarchical columns in analyses and views

Course Topics

Introducing Oracle Business Intelligence Enterprise Edition

Introduction to Oracle BI

Architecture overview

Working with Oracle Business Intelligence Analyses

Introduction to Oracle BI Analysis Editor

Oracle BI column types

Working with analyses in Oracle BI

Using advanced formatting

Limiting and Grouping Data in Analyses

Introduction to filters and selections

Creating, editing, and grouping filters

Adding prompts to analyses

Dynamic filtering

Using saved analyses as filters

Working with Views and Graphs in Analyses

Introduction to views, graphs, and editors

Working with views in Compound Layouts

Creating and editing graphs

Linking master-detail views

Performing common view tasks

Showing Results With Pivot Tables

Creating, arranging, and formatting a pivot table

Using hierarchical columns

Sorting in pivot tables

Setting aggregation and using totals

Showing an item's relative value

Building calculations and displaying running sums

Creating Oracle Business Intelligence Dashboards

Creating and editing dashboards

Using the Dashboard Builder

Exploring dashboard object properties and options

Publishing dashboard pages

Creating personal customizations and using other page options

Configuring Oracle Business Intelligence Dashboards

Exploring types of dashboard content

Embedding content in dashboards

Creating Dashboard Prompts and Variables

Understanding variables

Adding a named dashboard prompt to a dashboard

Adding a hidden named dashboard prompt to a dashboard

Creating additional prompt page and setting page preferences

Adding variable prompts to a dashboard

BI Composer

Examining BI Composer Components
